<b>Section F – Skills, Experience and Knowledge</b>				
Please state the reasons why you wish to apply for the position and give details of any experience, skills, training that you think is relevant, together with any other information in support of your application.				
<p>I have a diploma in Child Development and from this course I learnt a lot about the different stages of child development and how to help children achieve their full potential. In my roles working with young people I have on many occasions developed working plans with them which have been fun for them and which have helped them learn quicker than using more conventional approaches.</p> <p>I keep up to date with legislation and guidance by reading relevant journals and I also regularly read the TES. I have been working with children and young people for over 10 years and have experience of working in a range of environments.</p>				

I am very committed to children and young people and always ensure they are safe in any work I do with them. In my current position I spend a lot of time getting to know the parents of the young people I work with and many have commented on how safe they feel their children are in my care.

All of the work I do aims to meet the needs of children and young people. In any work I do with them I start by finding out from them what they want and need from me as a worker, and regularly get their views on the work as it progresses. Children therefore find me approachable as I am very interested in their needs and views.

I am committed to continually developing myself as I believe that I need to be a role model on how you can develop yourself to children and young people. This helps the young people I work with see how important self-development and growth is. I attend regular courses through work and like to do a lot of reading and research in my own time to ensure my knowledge of child development is as up-to-date as possible. I have attended training on Prevent and have led group discussions with the young people about British values.

I am a strong team player and am highly thought of by my colleagues. I regularly support colleagues when they need help on areas in which I am more expert such as child development. In my view, the best teams are made up of a range of individuals and it is their different experiences, views and ideas which have made the teams I have been part of such a success.

I thrive under pressure. Recently, we were inspected and before the inspection there was a lot of work to do to ensure that all my work plans and files were ready to be inspected. I prioritised my time to make sure that everything got done in time and we had a very positive inspection; my work was commented on very positively. I work within organisational procedures now and feel it is important that they are clearly defined and explained.

In addition to my paid work with children I was also until recently a voluntary leader at my local church youth club 2 nights a week.
